

**IRIBHM INTERNATIONAL Ph.D. PROGRAM 2018
APPLICATION FORM**

DEADLINE: APRIL 22, 2018

IRIBHM is a research institute of the Medical School of the Free University of Brussels (Université Libre de Bruxelles, ULB). The institute offers an internationally prominent research environment in molecular biology and life sciences, that engage different topics that span receptor pharmacology and new therapeutic targets discovery, early embryonic development, neurobiology, stem cells and cancer. The institute has trained over the years a number of talented young scientists both at the graduate and postdoctoral levels. In order to expand internationally and keep rising its level of excellence, the IRIBHM launches an international graduate programme in order to prepare the future leaders in biomedical sciences.

At least **2 PhD scholarships are available**. The successful candidates will have the opportunity to work in a warm and stimulating research environment aligned with the highest international standards.

As the administrative center of the European Union, Brussels is a perfect location for an International PhD programme. In addition, the city shows an active cultural life and is hosting most nationalities from all over the world.

Closing date for application is **April 22, 2018**. The short-listed candidates will be invited for an interview, which will be held in Brussels (between **June 11 and 15, 2018**). Accepted candidates are expected to start their research project on **November 1st, 2018**.
